## Team

**Aaron Monroe, CFA**  
Portfolio Manager

**Kristen Sheffield, CFA, CIPM**  
Portfolio Specialist

## Philosophy and Process Highlights

Under our intrinsic value philosophy, we:

- Treat every investment as a partial ownership interest in that company
- Seek to invest at a discount to intrinsic value
- Possess a long-term investment temperament
- Recognize that market price and intrinsic value tend to converge over a reasonable period of time

## Portfolio Guidelines

- Typically 50–80 positions
- Maximum position size is 7%
- Top 10 holdings are typically greater than 25% of net assets
- Maximum industry exposure is 20%
- Maximum sector exposure is 30%

## Market Capitalization

The portfolio typically invests in companies with a market capitalization below \$3 billion (or, if greater, the maximum market capitalization of companies generally within the capitalization range of the Russell 2000 Index) at the time of purchase.

Diamond Hill Capital Management, Inc. (DHCM) is a registered investment adviser and wholly owned subsidiary of Diamond Hill Investment Group, Inc.; registration does not imply a certain level of skill or training. Diamond Hill provides investment management services to individuals and institutional investors through mutual funds and separate accounts. DHCM claims compliance with the Global Investment Performance Standards (GIPS®). The Small Cap Composite is comprised of all discretionary, non-fee and fee-paying, non-wrap accounts managed according to the firm's Small Cap strategy, including those clients no longer with the firm. The strategy's investment objective is to achieve long-term capital appreciation by investing in companies within the market capitalization range of the strategy that are selling for less than our estimate of intrinsic value. The Small Cap strategy typically invests in companies with a market capitalization below \$3 billion (or, if greater, the maximum market capitalization of companies generally within the capitalization range of the Russell 2000 Index) at the time of purchase. The Russell 2000 Index measures the performance of roughly 2,000 US small-cap companies. The Russell 2000 Value Index measures the performance of US small-cap companies with lower price/book ratios and forecasted growth values. The indexes are unmanaged, market capitalization weighted, include net reinvested dividends, do not reflect fees or expenses (which would lower the return) and are not available for direct investment. Index data source: London Stock Exchange Group PLC. See [diamond-hill.com/disclosures](https://diamond-hill.com/disclosures) for a full copy of the disclaimer. Composite results reflect the reinvestment of dividends, capital gains and other earnings when appropriate. Net returns are calculated by reducing the gross returns by the highest stated fee in the composite fee schedule. Only transaction costs are deducted from gross of fees returns. Prior to 30 September 2022, actual fees were used in calculating net returns. All net returns were changed retroactively to reflect the highest fee in the composite fee schedule.
